

Educational Philosophy

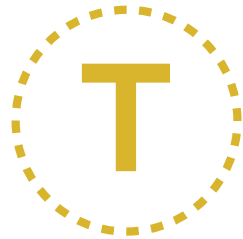

STEPS isn't just a catchy slogan to us, it's a philosophy. At Footsteps, we believe that every child is unique, brimming with potential, and growing up in a world where the future of work, life, and our planet is evolving faster than ever.

At Footsteps, we are committed to ensuring that every single child thrives in this dynamic future; where success isn't defined simply by what they know, but by how they learn, think, adapt, and connect with others and the world around them.

Scholarly

Sparking a passion for life long learning alongside the pursuit of academic excellence

Transformative

Nurturing profound personal growth and development in each child as an individual

Embracing

Global citizenship by cultivating inclusivity, diversity, nurturing & acceptance of all

Pioneering

Seizing the future by being brave, bold, confident and proud to be different

Stewarding

Ensuring a future by embracing responsibility for the planet, nature and sustainability
